## FOREWORD

In this *Guide* I attempt to assemble some of the best conservative works available on a number of Biblical and related topics (eg history, abortion and so on).

I am sure you will find this list useful in your own study of God's Word.

While it is not meant to be exhaustive by any means, it is a list of the best known tools for studying Bible subjects. Those that are exceptional are in **bold**.

Of course, I do not necessarily agree with all the details contained in the books in the attached list, but they are the best known tools (NOT all the tools), as previously stated, for assisting you with your study into Bible doctrine and related subjects.

This list does not include materials by the old WCG (with the exception of the section dealing with the Ezekiel Message which has been included here due to the lack of knowledge on this subject nowadays and it would be educational to include this information in the *Guide*). I felt that there was no need to include the old WCG materials as they were the best anyway, and available for free on the internet. That should be considered a given.

Other useful items are:

- books published by Church of God members which may be accessed at the following website: [http://www.friendsofsabbath.org/list\\_of\\_useful\\_published\\_books.htm](http://www.friendsofsabbath.org/list_of_useful_published_books.htm)
- and old Ambassador College and WCG theses and papers, which may be accessed at the following site: <http://www.friendsofsabbath.org/ABC.htm>

Given that I originally began to assemble this list in the late 1980s, with some additions since, this is a living document – it will be added to as time permits. It is **far** from complete and many more topics and titles will be included later. Indeed, I have a copy of the original version with handwritten additions which is, alas, boxed. As such, I cannot add those items to the *Guide* just yet, but I hope to add many others in due course once I find the time to do so.

Note: it is a personal list, but am willing to share it for the benefit of others.
