

EPHRAIM

Ephraim is a companion volume to Mr. Davidy's earlier books, *Joseph. The Israelite Destiny of America, The Tribes* and *Lost Israelite Identity*.

Author Yair Davidy continues the story of the migrations of the lost ten tribes of Israel -- focussing on the birthright tribe of EPHRAIM AND MANASSEH, the sons of JOSEPH! In this amazing book he discusses "Lost Israel in the British Isles According to Arabian Tradition," "Talmudic Proofs," "The Paths of Israelite Migration Westward as Demonstrated by Megalithic Monuments Erected by Direction of the Prophet Jeremiah,"

"France, Britain, Israel, Germany, and Rome According to Talmudic and Rabbinical Commentators," "The Book of Obadiah and the Descendants of Edom," and "Biblical Proof the Lost Tribes Are Probably Christians!"

Ephraim describes and examines sources clearly showing that the peoples of the British Isles and Northwestern Europe are descended from the Lost Ten Tribes of Israel. Author Davidy presents seven Biblically-derived criteria that determine who belongs to the Lost Ten Tribes -- and comes to the astounding conclusion that the British-descended peoples FULFILL ALL OF THEM! The Jews themselves had traditions that located the Lost Ten Tribes in the western Isles of Britain; and Talmudic and related sources confirm these findings which are also applicable to North America.

The author proves conclusively that the northern "ten tribes" as a whole NEVER returned to Judea to become part of the Jewish nation, but are found today in Western Europe, the British Isles, North America -- and beyond! Incredible stuff!

Joseph places an emphasis on the Israelite origins of the English people. It costs only \$29.50.
